CHALLENGES AND SOLUTIONS OF SMALL NEWSPAPER

SMALL NEWSPAPER – A small newspaper is a written publication containing news and ads, usually printed on low costs newsprint often published on a daily and weekly basis. Small newspapers focus only on one particular area where most of the readers live.

The major challenges of small newspaper are the following:-

- 1. **Financial Problem**: Since small news. Paper relieve on private adv. The lack of adv. It makes it hard for a small newspaper to run for a very long time adv.
- 2. Lack of Advertisement: The boom in electronic media has affected no. of advertisement space in the newspaper.
- 3. **Administration**: With limited revenue, small newspapers cannot maintain a large staff. So they depend on a few people to do all of the work.
- 4. **Printing Cost**: Small newspapers with their restricted finances, cannot afford to print on high-quality newsprint so they use low-cost printing which is of much lower quality giving the newspaper a very cheap look.
- 5. **Network**: Small newspaper has a very limited network because the employee very few reporters.
- 6. **Facilities**: If a small newspaper cannot afford to provide a lot of higher facilities for its employees.
- 7. **Delivery**: Small newspaper is forced to depend on delivery boys to distribute the newspaper.
- 8. **Circulation**: The circulation figure of a small newspaper is very less. Since a small newspaper is subscribed by people of only one locality.

9. **Competition**: - Due to technological advancements in the field of print media there is a very hectic competition among the big newspaper which are engaged in price wars.
